

Idaho County Board of Community Guardians

10/22/20

Location: Conference Call

Submitted by: Andrea Solberg, secretary

In attendance:

Board Members: Lynda Fox, Alan Fox, Larry Clark, Darlene Clark, Klarey Ewing, Chris Hagenbuch, Andrea Solberg

Non-members: Kirk MacGregor, Idaho County Prosecutor, Joan Haaland-volunteer guardian

Minutes: The reading of the minutes was postponed.

Referral: We have received a letter of recommendation from The Meadowlark Assisted Living Center for GE. Lynda will request a statement from Dr. Griffis. Klarey will talk with GE's next of kin. This is not a referral, but a suggestion that having an appointed guardian for GE might be the right step for GE in the future.

Old Business

Update on MS: Kirk reported MS is in legal custody of Idaho Department of Health and Welfare due to a commitment from the state of Idaho. He is back living in the shelter home in Cottonwood. There is no need to proceed with guardianship at this time. If MS suffers another medical emergency, we may then need to establish guardianship to manage the immediate medical issues. Lynda will update the shelter home and MS's family with this information.

Update on LB: Joan reported everything is going fine with LB. Joan signed papers for LB to receive her flu shot. The Care Center has reported that LB has fallen a few times, but has not been hurt. LB qualified for Medicaid once her Post Falls property sold. Care Center still has not been paid the balance of LB's bill, but have quit sending the Haalands a bill. LB's daughter is in a relationship and appears to be happy. She lives in LB's house and is responsible for the payment of water and utility bills through LB's account managed by the Haalands. Bills are current now, but Joan is not sure if this will last. The account currently has \$200 in it. Haalands are hopeful LB's daughter will deposit necessary money to cover future bills.

Update on LM: Lynda reported LM's health has stabilized. She is declining, but at a slower pace than expected. Her skin conditions have improved. She is allowed outdoor visits only, at this time, due to Covid-19

New Business:

Klarey reported she has received a survey from Odyssey Residential, a care center for persons with disabilities. No one from the board knew why she would have received this survey, so Klarey will follow up with them and let us know what she learns.

Our next meeting was tentatively set for **Dec. 17, 2020** to follow-up on the letter of recommendation we received for GE along with any additional, pertinent information we learn from our inquiries to Dr. Griffis and GE's next of kin. We can reset this meeting date if all business pertaining to GE can be accomplished via email.

The meeting was adjourned at 4:25 p.m. following a motion to adjourn by Larry, seconded by Klarey and passed unanimously.
