

STATEMENT OF NON-COMPETITION

The Innovative Readiness Training (IRT) Project Training Program pairs community needs with military readiness training by providing real world experience through community project work. Idaho County has applied for IRT with the Idaho National Guard for the Elk City Lake Project located in Elk City, ID for Fiscal Year 2023-24. The IRT would not compete with the services offered by civilian companies/vendors/entities or private providers. The requested IRT assistance is not reasonably available from a commercial entity to develop a fishing lake and parking lot for public use where there are no funds available for said project.
